live life better

City life races by at a million miles an hour and Subaru Impreza is impatient to experience it all. It's a seize the moment, forward thinking, kind of car with a passion for fun. Spirited, sporty and sophisticated, the surprising Subaru Impreza is synced to make your world brighter.

With awe-inspiring levels of style, tech, safety and comfort, this category-leading Subaru is bristling with extras and a myriad of standard inclusions that other brands consider optional. Meaning every drive in a Subaru Impreza is far from 'standard' – helping you to discover 101 ways to do life better.

amped up tech

Unabashed boldness drives Subaru Impreza, accelerating innovation and fuelling good times with new tech. Impreza amplifies daily life by presenting a smart technology line up you never knew you needed – but one you'll never want to be without. With the functionality, sleek design and desirability of a high-end smart phone – Subaru Impreza's tech ticks all the 'must have' boxes.

Start hands-free and stay footloose with smart key and push-start ignition. While the revolutionary Subaru EyeSight® Driver Assist and Subaru Vision Assist¹ on selected variants deliver on safety, and the rear-view reverse camera has your back. The infotainment setup boasts an arsenal of features, to help you take control and navigate life. Tap into crystal clear digital radio² (DAB+) or dial up the good vibes with Apple CarPlay® and Android Auto™ connectivity³ and six speakers to pump out the tunes. But best of all? This premium, cutting-edge tech underpins Subaru Impreza's uncompromising value.

because fun is an imperative

Do life better by
rejecting the mundane
and embracing the
things you love.

Subaru Impreza is a car designed to impart a joy that's infectious. Tweaked to reward you at every turn, is the dynamic handling of the Symmetrical All-Wheel Drive and legendary horizontally-opposed Boxer engine. Yet this spirited performer is so quiet, you can almost hear your heart sing.

Subaru Impreza also busts the myth that urban driving is boring. With Subaru Intelligent Drive (SI-Drive), you can dial up the sportiness for a highly responsive drive. Because no two days, and no two commutes, are ever the same - Subaru Impreza drives two ways. With Intelligent Mode peak hour is infinitely more bearable. While Sport Mode provides a sharper engine response that can enhance driving enjoyment. So every trip promises an inherent thrill and a drive that's pure fun.

Subaru Impreza 2.0i-L AWD

poised to impress

The iconic Subaru Impreza is in a class of its own. A car that transforms even a seemingly routine commute, into something better. There's a sure-fire thrill in every drive and an assurance that is only provided by Symmetrical All-Wheel Drive. With city agility and highway power, the Subaru Impreza's superior ride and handling are thanks to the future-forward Subaru Global Platform.

streets ahead in style

For the creators of the Subaru Impreza, style is defined as the perfect combination of aesthetics and design principles. It's a philosophy you can see reflected in the sleek, modernised lines. The wide, sporty stance and sculpted exterior are a lesson in contemporary simplicity – which also hints at its supreme, city-inspired agility.

While inside high-end finishes and generous dimensions reframe what's expected of a compact car. The plush, super comfortable seats deliver instant gratification and take refinement to a new level. But that's the magic of Subaru Impreza – a feisty model that defies the laws of small car design. A Subaru with soul that believes in constantly delivering new ways to do better, while striking the perfect balance between form and function.

tech that connects you

Whether you want to connect with 101 friends or just that special one, Subaru Impreza has endless ways to do it better. Enjoy laugh out loud moments thanks to an immersive infotainment screen with a host of technologies that let you connect, listen and share in an instant.

Apple CarPlay® and Android Auto™ connectivity¹ allows you to use voice commands² and hands-free smartphone functionality. Tap the large touchscreen to access an array of information and entertainment. Look up contacts, bring up maps and access favourite apps, news, music, podcasts and more. Revel in seamless driving with infotainment steering wheel controls intuitively placed for drivers negotiating city traffic. While quick-response, fingertip operated paddle gear shifters, mean your hands never need to leave the steering wheel.

It's a spirit Subaru Impreza also exudes with its versatile personality, taut driving dynamics, zippy manoeuvrability for negotiating urban traffic – and an overt energy that bristles through every inch of the Subaru Global Platform (SGP) at its core.

This streamlined framework features a rigid suspension base, for minimal frame distortion and body roll. By helping to maintain ideal tyre contact and grip with all road surfaces, SGP delivers more responsive steering, improved cornering, optimum control and better straight-line stability. It's just another reason Subaru Impreza deserves its 5 star ANCAP¹ safety rating.

But fun isn't limited to city streets. Get out of town and Subaru Impreza will serve up 101 new ways to do weekends better. Watch the generous boot easily accommodate your luggage – even though you've packed enough gear for a week! And should you need to transport an oversized item, the versatile 60/40 split rear seatback in Subaru Impreza comes to the rescue.

heart and soul

When fine-tuning every element of the sleek Subaru Impreza, the creators were unanimous that some things remained sacrosanct.

Symmetrical AWD

Boxer Engine

The heart and soul of Subaru Impreza owes its vitality to the intersection of two irreplaceable forces - the iconic horizontally-opposed Boxer engine and Symmetrical All-Wheel Drive system. Designed to sit lower and flatter in the engine bay than traditional engines, Boxer's unique design delivers less noise and vibration to the cabin, while the lowered centre of gravity improves stability, cornering and traction with the road.

Coupled with Subaru Impreza's symmetrical drivetrain, this configuration delivers innate balance from the ground up while driving engine power to all four wheels. With simultaneous power distribution Impreza boasts twice the grip capacity, compared to conventional vehicles, resulting in better balance, superior handling confidence on slick city streets and outstanding driver enjoyment.

 Safety and performance are built into the very core of Subaru Impreza, learn more about the advanced engineering at www.subaru.com.au/safety-active

Protecting you and your passengers throughout every moment of your journey always has been, and always will be, at the heart of everything Subaru does. Subaru strives to create innovative cars that protect you and your loved ones, whether they're in or outside the car.

towards zero fatal road accidents by 2030¹

It's a philosophy that started with Subaru's first mass produced vehicle and saw Subaru achieve a number of world safety firsts.

Now, Subaru is proud to introduce its most important safety vision yet – working towards zero fatal road accidents in a Subaru vehicle by the year 2030¹. A vision underpinned by the four vital safety pillars of Primary, Active, Preventative and Protective safety that work together to achieve Subaru's 'All-Around' approach to automotive manufacturing. By combining holistic design principles and advanced safety technologies with cutting-edge future innovations, Subaru Impreza aims to provide inherent safety and peace of mind so you can do life better.

Road user safety is expressed in the design of countless Subaru innovations www.subaru.com.au/safety

1. Subaru Corporation (the Japanese manufacturer of Subaru cars) has publicly stated its aim to reduce the number of fatal accidents in a Subaru vehicle to zero by 2030 as well as the number of fatalities among pedestrians, cyclists and the like as a result of a collision with a Subaru vehicle. For more information on Subaru Corporation's CSR initiatives visit www.subaru.co.jp/en/csr/subaru_csr/sixpriority/peace.html.

EyeSight® Driver Assist system is standard across the Subaru Impreza range.

EyeSight® Driver Assist

second pair of eyes

This world-renowned preventative safety system operates like an ever-attentive second pair of eyes – to provide warnings, plus braking and steering intervention that is designed to help reduce driver burden, prevent accidents and save lives.

Subaru EyeSight® Driver Assist system incorporates a host of primary functions – Pre-Collision Brake Assist, Pre-Collision Braking System, Pre-Collision Throttle Management, Adaptive Cruise Control, Lead Vehicle Start Alert, Lane Departure Warning, Lane Sway Warning and Lane Keep Assist.

Using EyeSight® stereo cameras, this intelligent system detects potentially dangerous driving situations before you do. While the host of primary functions prompt the driver to take action or assists in the event it detects an impending collision.

You'll look at safety with new eyes when you learn more about Subaru's advancements at www.subaru.com.au/safety-preventative

A smart driving companion to have on your side, Subaru's Vision Assist¹ uses embedded cameras, advanced monitors and radar technology to detect vehicles and obstacles you can't see. Subaru

Vision Assist¹ is standard on selected variants and combines with EyeSight® Driver Assist technology to empower drivers with a sixth sense to support preventative safety.

Vision Assist¹

EyeSight® Driver Assist

all knowing, all seeing

Subaru's Vision Assist¹ on selected variants utilises the Multi-Function Display unit (MFD) to give drivers a greater awareness of the world around them. Blind Spot Monitor uses rear sensors to make lane changes safer, by warning of vehicles detected in the blind spot. Meanwhile the Front View Monitor uses a front grille mounted camera to capture images of the blind area immediately in front of the vehicle to help avoid damage when parking.

The Rear Cross Traffic Alert warns the driver when another car is detected approaching whilst the driver is reversing out of a car space. Reverse Automatic Braking triggers a warning to alert the driver of a detected obstacle and can apply the brakes if the driver doesn't react first. When changing lanes, Lane Change Assist radar sensors are designed to detect fast approaching vehicles and warn the driver of their presence.

peace of mind protection

It has always been Subaru's purpose to design vehicles with a crucial advantage in road safety and occupant protection. While Towards Zero fatal road accidents in a Subaru vehicle by the year 2030¹ represents Subaru's ambitious future target, decades of astute observation, structural development and design research has informed the remarkable safety advances built into the 5 star ANCAP² safety rated Subaru Impreza.

The SGP and ring-shaped passenger safety cell absorb and direct impact force around the cabin, rather than through it.

An overwhelming feeling of protection is underpinned by Subaru Impreza's carefully engineered body structure and Subaru Global Platform, including the ring-shaped passenger safety cell. The ring-shaped passenger safety cell that cocoons occupants has been designed to absorb and direct the impact of a collision around the cabin, rather than through it. Meanwhile, the symmetrical layout of the All-Wheel Drive system and horizontally-opposed Boxer engine is designed to allow the engine to 'submarine' under the floor during a severe frontal collision – protecting the cabin's occupants.

In addition, the chassis structure has been engineered to include crushable zones, absorbing collision energy to effectively protect passengers. While Subaru can't control every variable on the road, the inclusion of seven SRS³ airbags in Subaru Impreza can help reduce the possibility of serious injury in the event of a serious accident.
