

2016.0 RANGE ROVER (LG), 413-01

INSTRUMENT CLUSTER

INSTRUMENT CLUSTER LENS

[G1671466]

REMOVAL AND INSTALLATION

REMOVAL

NOTE:

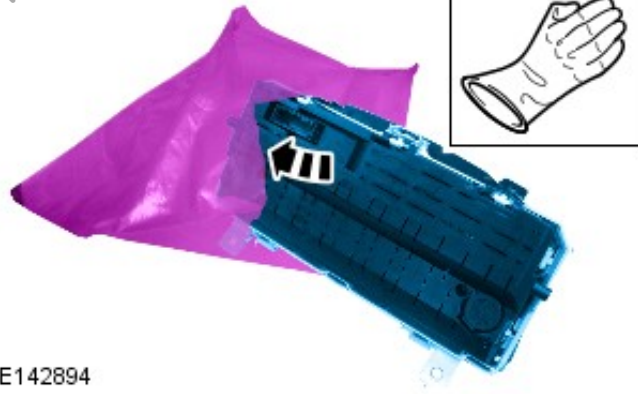

Some variation in the illustration may occur, but the essential information is always correct.

1. Fully extend the steering column for access.
2. Disconnect the battery ground cable.
Refer to: Specifications (414-01 Battery, Mounting and Cables, Specifications).
3. Refer to: Instrument Cluster (413-01 Instrument Cluster, Removal and Installation).

4.

CAUTION:

To prevent static damage to the circuits, place the instrument cluster inside the electro static discharge bag and use the gloves provided during this procedure.

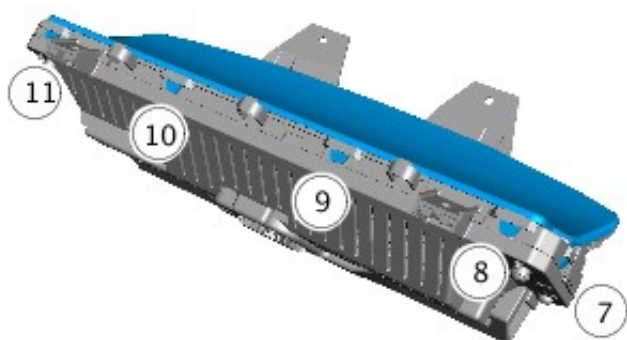

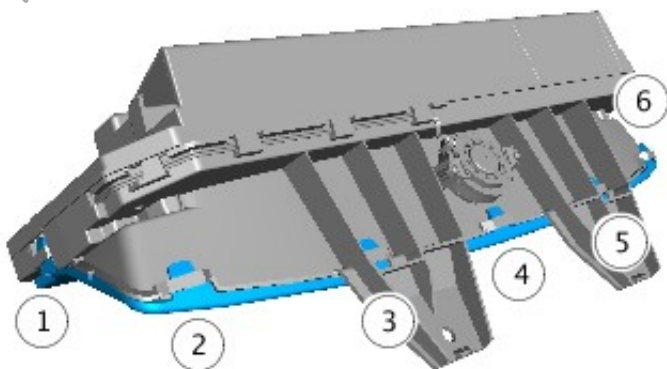

E142894

5.

CAUTION:

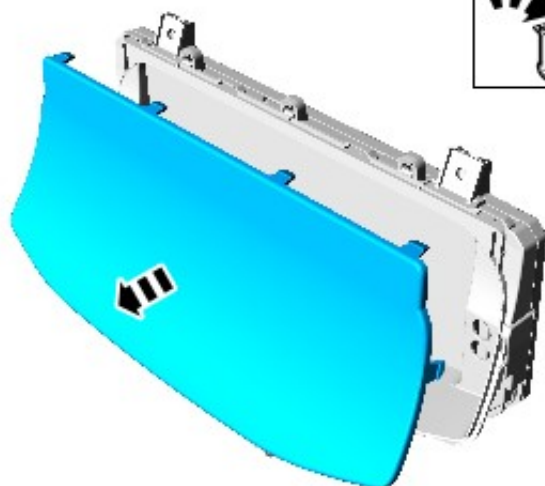

Using a suitable plastic trim tool, release the clips.

E162741

Starting from one end, carefully release the 11 clips in the order shown.

6.
